Managing and recording payments:
• Payments for multiple studies should never be commingled, including other change funds or petty cash funds. Funds may not be deposited into a personal bank account, even temporarily, for any reason.

Custodian Acknowledgement

• All research stipends paid in person must be substantiated with a recipient signature.
• Mailed payments should be substantiated by a log signed by two people.
• The payments on hand should be routinely reconciled and the results documented. Reconciliation should be reviewed by an individual independent of persons with custodial or payment processing responsibilities.
• A “check out” log should be used for payments provided to someone other than the custodian, for later distribution to participants, or that are taken off-site (an example of such a log can be found on the HSP website). This may be to a lab in another building or off-campus.
• Collect and record SSN, Name and Address or participants in the payment log if required.
• HSP Study Fund Requests (SFR) must be modified and approved by Department Approver if you want to change the location or custodianship of this fund. Until the custodianship has been transferred and approved by your department you will continue to be held responsible for this fund.

I understand best practices and agree to be responsible for safeguarding these payments, maintaining appropriate records, and ensuring that they are spent appropriately and in accordance with UF policy. Non-compliance with these provisions may result in the closing of the account and denial of future custodianship privileges.
