Introduction

University of Florida (UF) uses a web-based computer application called Space Inventory and Allocation System (SPIN) to annually collect information on how university buildings and rooms are being utilized. The system has been developed as a joint effort between the Division of Finance and Accounting / Office of Cost Analysis and Planning, Design, and Construction.

The information gathered as a result of this survey is used for many purposes. One objective is to assist with development of the Facilities & Administrative (FnA) Rate Proposal to the Federal government. Another purpose is to inventory UF space and internally track and monitor how well the University’s space is being used. Finally, data gathered as part of this allocation is also used as a part of the development of the RCM budgeting tool.

There are two processes to reporting space, certifying and authorizing. Different individuals within the department must complete each of these processes. The Office of Cost Analysis requires that authorizers be at the Director, Department Chair, or Dean level.

The results obtained through use of the space survey can translate into millions of dollars in funding for the University of Florida. Whether you certify or authorize space for your department, you play a critical role in the University of Florida’s compliance with Federal and State guidelines, and its quest to remain competitive with other educational institutions.

Policy for Meeting Deadlines

The University of Florida is committed to completing its space allocation survey every fiscal year to obtain information necessary for required reporting to the State and for use by the Office of the CFO for the RCM budget process. In addition, completing the space survey every year assists in maintaining the knowledge of staff completing this task. Deadlines are established and communicated for the completion of the space survey which are important for meeting these objectives. Therefore, if a department is noncompliant in meeting these deadlines, all their space will be reported with a use code of “Research Lab” to the Office of the CFO for RCM budgeting purposes, thus resulting in the highest RCM assessment available.
Gathering and Preparing the Information for Input

Step I - Before you enter information into the web-based system, you need to become familiar with the space allocation categories. See Space Allocation Survey Category Descriptions on pages 14 through 20 for a complete description of each category. Please remember that your work should be well-documented, include methodology used to determine room allocations.

Step II – Interview your room occupants. A feature of the Space Inventory and Allocation Survey is the ability for each department to export to Excel a listing of all the buildings and rooms for which they are responsible. You can then use the Excel worksheet as a tool to interview the occupants and to determine how the space has been utilized. This is the department’s record that the individual and his or her supervisor provided and agreed to the space allocation information. Your department’s authorizer may wish to review the data with you before you enter it into the Space Inventory and Allocation System. You must retain a copy of this information in your office in the event your area is audited.

Please call Cost Analysis at 392-5778 if you have any questions about the space allocation categories or which category to use in a specific situation.

EXAMPLES

The question to be answered when preparing to allocate (spread) the use of a room is, **“Over the entire fiscal year (7/1 to 6/30), how was this space used?”** The person responsible for reporting should interview the occupant(s) of a room or a responsible individual (PI, Lab Manager, etc.) in order to determine all uses of the room during the fiscal year.

It is important to understand the differences and relationships between effort reporting and space allocation reporting. Effort reporting measures how an individual's time was used during a specific period. However, when a space administrator interviews occupants of a room, he or she is asking what activities were performed in that space. There is usually a correlation between effort and space reporting, but not necessarily a one-to-one relationship. For example:

A professor reported his/her effort for all three semesters of a year as 60% Organized Research, 30% Instruction (including advisement), and 10% Department Administration. This represents the time spent on these activities by the professor. Two rooms are assigned to this professor: an office and a laboratory. After the space administrator interviews the professor, the following is clear:
Teaching is performed in classrooms that are allocated by a different department as instruction. The professor's lab is used 20 hours a week, exclusively for organized research. It is therefore allocated as 100% *Organized Research* in the Space Inventory and Allocation system. The professor's office is used approximately 15 hours a week and is estimated by the professor to be used 70% for *Instruction*, 10% for *Organized Research*, and 20% for *Department Administration*. The office is allocated similarly in the *Space Inventory and Allocation System*.

**If a Room Has No Occupants**

Identify the use of the room by talking with the chairperson and/or the people who utilize the room and allocate it accordingly.

Example: A departmental mailroom, conference room, and shared equipment room are examples of rooms that may not have assigned occupants.

**If a Room is Used for Only One Purpose**

Identify the room use, and allocate it accordingly as 100%.

Example: A classroom lab used only for instruction that is funded by appropriations will be allocated as 100% *Instruction*.

**If a Room is Used for More Than One Purpose (Joint Use)**

Estimate the percentage of time the room is used for each purpose. This should be based, as stated earlier, on interviews or other documentation. *Avoid simply splitting the room 50%-50% or 33%-33%-34%, unless this is an accurate representation of how the room was used.*

Example: If a lab is used for departmental research and organized research, it would be a joint-use room. A faculty member might use his or her office for work related to instruction, departmental administration, and clinical practice. These are examples of a joint use room, and the room should be allocated according to the percentage of each activity performed in the room during the entire fiscal year.

**If a Room Has Been Vacant or Under Renovation**

Determine the appropriate percentage of the year that the space was vacant. *Normal absences for short work breaks (summer) and vacations do not mean a room is vacant*. Also, *if the classroom or lab is only used once a week the room is still not listed as vacant and the use of the room would remain 100% Instruction or other correct allocation category.*
Example: A room that was vacant (empty and unused) for 3 months of the year would be allocated as 25% vacant /renovated and the remaining 75% would be spread under the appropriate categories reflecting how the room was used during the rest of that fiscal year.

Remember, the question that must be answered for each space in your survey is, “Over the entire fiscal year, how was this space used?”

II. Accessing the Space Inventory & Allocation System

a. Online Security Request

In order to access the Space Inventory and Allocation System (SPIN), you will need to have your department’s Security Administrator (DSA) create a security request through myUFL. The DSA will need to enter your UFID, your eight-digit Department ID in the Authority Area, and only one of the following roles:

- UF_N_IND_COST_SP_ALLOC_BROWSE (a “look only” role)
- UF_N_IND_COST_SP_ALLOC_CERTIFY
- UF_N_IND_COST_SP_ALLOC_AUTH.

b. Recommended System Requirements

Required:
- Resolution: 1024 x 768
- Browser: Microsoft Internet Explorer 7.x or higher or Firefox 3.x or higher
- Javascript must be enabled
- Cookies must be enabled

c. Required Authority Area field

When requesting any space allocation role, please remind your DSA to include the eight-digit DeptID(s) you will be reporting in the Authority Area of the request. If the field is not initially updatable, the DSA must select the Save button to activate the field for input.

Examples:
- ⇒ 29000000 = provides access to all DeptIDs beginning with “29”
- ⇒ 29010000 = provides access to all DeptIDs with “2901”
- ⇒ 29010000;29020000;29030000; = access to all DeptIDs beginning with 2901, 2902, 2903 (Note the required semicolons between each and at the end, with no spaces in between.)
III. Main Menu

Once you have obtained the security role to access the *Space Inventory & Allocation System*, you will log in using your Gatorlink ID and password. The first screen to appear is the Main Menu.

**View Selections**

Users can view the space by the room list from the main screen.

**System Status**

The status of the system will display on the main menu. When a survey is not in process, the system will be open only for occupancy edits and space change requests.

**Help**

If you are in need of assistance with questions, you can click on the link under the Help box to email the Space Team. There is also the User Manual along with a list of Room Use Codes and Allocation Definitions for your convenience.
IV. Room List

On the Home Screen, the following information will be displayed your list of rooms:

The room list will display all rooms and all buildings that you are responsible for. The list contains building, floor and room numbers, room use, square footage, pending change requests, occupant status symbols, space allocation status symbols, and project information status symbols.

a. Room Information Screen

Select a row to view the detail screen for the room. This will include the occupants, projects, and allocation percentages of the room. Review the information on this screen for accuracy. If any errors in the room utilization are present, click the submit space change request screen to correct the error.

b. Space Change Request Screen

If you have the certifier security role you will be able to update or verify the department who is responsible for the space or the use and sub use of the space.

**If the room information is ok as is, click the verify button to be complete with the room.**

**Note: If you are not able to click on the button and create a space change request, please refer to page 6 on how to obtain the proper security.**
This form is used to let Planning Design and Construction know about changes to the room.

For example:

1. If the room should not be assigned to your department, remove your department ID from the Dept box. If you know which department the room should be assigned to, insert the correct Department ID or leave a note of the department ID. If not, leave it blank and click “SAVE”.

2. If the Room Use has changed, choose the correct Room Use from the drop down menu. Update the room Sub Use in the same way.

3. If there has been any physical change to the room in the past year, make a note in the Comments field. Planning, Design, and Construction will visit the location and revise the floor plan and square footage information.

After completing the Space Change Request, click the Save button and you will be returned to the room that you are adjusting. You will see on the Room Information that a Request is pending.

A question mark will appear under the Room column on the Home Page until Facilities, Planning & Design has reviewed your request. The room will not allow verification and certification cannot occur until all Pending Requests have been resolved.

c. Add a Missing Room

If you need to add a room that is missing from your department’s assigned room list, you can contact Planning, Design and Construction to request that a room be added to your department.
d. Occupancy Verification

At the start of each survey period, all rooms in the Room List screen (See Page 8) will be marked as needing occupancy verification. After verification of occupants the orange - listed on the room list screen will change to a blue check mark. During non-survey periods, occupant changes will still be permitted.

The Occupants screen will show all occupants that were reported in the prior year’s Space Inventory and Allocation Survey. Review the occupants who are reported in the room.

**Occupant information including title and phone number come from HR Job Data. If any of this information is incorrect, contact your department’s HR Coordinator to ask about a correction.**

*Note - if you see an occupant whose name is in Italics, it means that the occupant no longer has an active job appointment with the University.*

**Adding Occupants**

To add a new occupant, select ADD. You can search for an occupant using their UF ID, Gatorlink or Last Name. The results are displayed. Use the navigation tools to scroll through the search results until you find the name you are looking for. You will have to add the start date as to the date the individual began occupying the space.
**Moving Occupants**

Occupants can be moved from one room to another - without being removed and added again - by using the “MOVE” function. This will remove the occupant from the current room and move them to a new room.

Select the occupants you wish to move and select the building and room to which they will be moving. You must also enter the move date in a MM-DD-YYYY format. Once this information has been entered click “MOVE OCCUPANTS” to complete the move.

**Copying Occupants**

Occupants can be copied from one room to another by using the “COPY” function. This is especially useful in instances where a professor and research assistants occupy both an office and one or more laboratories. This function will copy selected occupants of the room to a new room.

You must also enter the start date in a MM-DD-YYYY format. Once this information has been entered click on Copy Occupant to Complete.
Removing Occupants

To remove an occupant, select the occupants you wish to remove and click on the Remove button. If the occupant shown never occupied the space and needs to be completely removed from this room, change the start date to match the end date in the “History” screen. The date which the occupant was removed will be automatically be entered by the system. If the occupant no longer works in the room, then select the date that they officially moved out of the room. If the occupant moved out during the Fiscal Year that you are reporting, the individual will still be displayed on the screen because they worked in the room during the fiscal year. If the occupant did not work during the FY that you are reporting, you can change the move out date to the end of the previous fiscal year.

Viewing Occupancy History

To view the history of a room, select the “HISTORY” function. You can edit the occupant’s start and end dates by clicking on the date you wish to change.

Verifying Occupants

The final step to Occupancy Verification is to click on the “VERIFY” link. Once you have verified occupants, the title will change from gray to blue and the - will change to a check mark.

Also, the icon in the occupants column of the Room List will change from a — to a ✔.
Adding and Removing Occupants, Cont.

You can also add and remove occupants from the Data Screen.

From the left hand side menu bar click “Data”.

This will bring your data screen. Once there select “My Employees”.

This will list all of the employees that are or have been in your department.

Status will indicate if they are:
- A - Active
- R - Retired
- T - Terminated (With the termination date in Job Data)

This will tell you how many rooms they are listed as an occupant for.

To remove or add occupants to rooms, select the Menu Button to give you options on doing so.
e. **Space Allocation**

**Entering/Submitting Information**—Each Space Allocation record will be preset with the ☐ icon. This icon indicates that the room needs to be allocated. During non-survey periods the Space Allocation and Project information screens will not be available for input. Click on row of the room to allocate the space.

The certifier must allocate the room to one or more of the subsequent categories for a total of 100%. If the total does not equal 100%, an error message will be displayed.

![Allocations Table]

Choose the allocation categories using the following definitions:

**Departmental Administration (DA)**

Use this category to report space used for administrative and supporting services that benefit common or joint departmental activities or objectives in academic deans’ offices, academic departments and divisions, organized research institutes, study centers, and research centers.

- **Academic deans’ offices**: Space attributable to administrative functions.
- **Academic departments**: Space attributable to the administrative work (including bid and proposal preparation for new awards by departmental staff only) or faculty (including department heads) who have administrative functions of the department or college.
Includes space used for:

- General departmental office functions, including that of a chair and departmental staff, secretarial, clerical, assistants, and administrative officers.
- Administrative functions in deans’ offices.
- General departmental services, including mail distribution, copy rooms, and telephone service.
- Departmental staff participation in the development of a bid and proposal for new research activities.
  - Faculty Development of a bid and proposal is considered “Departmental Research”
- Departmental conference room.

Does not include space used for:

- Direct administrative effort related to a specific course. That is considered Instruction.
- Direct administrative effort related to a specific sponsored project and funded by the sponsored project. That is considered Organized Research.
- Space used for undergraduate or graduate coordination. That space is considered Instruction.

**General Administration (GA)**

Use this category to report space used for activities of the general executive and administrative offices of the University and other activities of a general character that do not relate solely to any major function of the institution: i.e., solely to Instruction, Organized Research, Other Sponsored Activities, or Auxiliary/Other Institutional Activities. **This category is only for areas that benefit the entire university.**

Includes space used by:

- President’s and vice-presidents’ offices
- Institution-wide financial management, business services, budget and planning, personnel management, and risk management
- Office of the General Counsel
- UF Enterprise Systems
- Finance and Administration
- Central administration of health affairs.
- Payroll
- Human Resources

Does not include space used for:

- Activities within non-university-wide dean’s offices, academic departments, organized research units, or similar organizational units. That space is considered Departmental Administration.
**Practice Plan Administration (PPA)**

Use this category to report all space used in support of clinical practice activity, including administrative activities related to the Faculty Practice Plans.

Includes space used for:

- Administrative and support services for the billing, collection, and distribution of professional fees.
- Faculty effort related to scheduling, reviewing patient charts, or other administrative activities related to clinical practice.
- Administrative support to faculty for any activity related to clinical practice.

Does **not** include space for:

- Actual health care delivery and/or treatment. This is considered *Patient Care*.

**Sponsored Project Administration (SPA)**

Sponsored Project Administration includes space used for all activities performed by Cost Analysis, Contracts and Grants and the Division of Sponsored Programs. These organizations are designated primarily to administer sponsored projects.

**Student Administration (STU Adm)**

Space used for activities for the administration of student affairs and for services to students. Includes: Offices of Deans of Students, Admissions, Registrar, counselors, as well as student health and the infirmary.

**Instruction (INS)**

Use this category to report space used for all teaching, training, and instructional activities, whether offered for credit toward a degree, certificate, or on a noncredit basis. Includes all activities related to teaching, such as preparation, grading, labs, and assistance to students registered in class.

Also includes space for:

- Syllabus production, exam preparation, textbook orders, and roster preparation.
- Formal classroom teaching.
- Academic counseling and advising students.
- Course preparation.
- Departmental libraries that are not part of the library system.
Sponsored Instruction (Spo Ins)

Use this category to report space used for specific instructional or other training activities established by a project, contract, or cooperative agreement.

**Payroll and expenditures must be utilizing one of the below Funding Sources:**

◊ 201, 209, 214 - with a program code in the chart field string that begins with a “1” Example: 1100

Does not include space used for:

- Research training, which is considered Organized Research. (See below for additional information)

Departmental Research (DR)

Use this category to report space used for research development and scholarly activities that are not Organized Research and, consequently, are not separately budgeted and accounted for.

Includes space used for:

- Research-related activities that are funded with unrestricted funds, such as miscellaneous donors, combined grants or allocation of overhead funds.
- Research-related activities that fund Gap or Start-Up for faculty.
- Development of bid and proposals for new research activities by the faculty.

Organized Research (OR)

Use this category to report space used for research and development activities of an institution that are separately budgeted and accounted for.

Includes space used for:

- **Sponsored Research.** This includes all research and development space used for activities that are sponsored by federal and nonfederal agencies and external organizations. This category includes space used in the training of individuals in research techniques (commonly called "research training") where such activities utilized the same facilities as other research and development activities and where such activities are not included in the instruction function. Examples: Outside Sponsored Research, such as federal, state, or local government; Industry; and Foundations.

**Payroll and expenditures must be utilizing one of the below Funding Sources:**

◊ 201, 209, 214
◊ 103 or 221 Where Program Code is for Research, Example: 2200

- **Cost Sharing.** Even if the funding for the space is not one of the listed fund numbers, but it is being used to meet a mandatory or voluntary mandatory cost share requirement for a sponsored research award, then the space should be coded as Organized Research.

- **University Research.** This includes all research and development space that is sponsored by institutional funds and is separately budgeted and accounted for. This type of organized research is awarded after review of an internal application for support of a specific project. Examples: Division of Sponsored Programs (DSP) grants
Other Sponsored Activities (OSA)

Use this category to report space used for sponsored projects that are not Organized Research or Sponsored Instruction. These projects are designated by the agency as “Other Than Research.”

Payroll and expenditures must be utilizing one of the below Funding Sources:

◊ 201, 209, 214 - with a program code in the chart field string that does not begins with a “1” or a “2.: Example: 3200

Examples of such programs include:

- Children’s Medical Services.
- Mother/Infant Care Services.
- Sponsored Museum Exhibits.
- Sponsored Journal Editorship.
- Sponsored Conference.

Agricultural Extension (Ag Ext)

Use this category to report activities involving the Institute of Food and Agricultural Sciences’ (IFAS) Cooperative Extension Service.

Auxiliary (AUX)

Use this space to report space used for revenue generating activities that serve students, faculty, staff and the general public or other University departments.
Includes space used by:

- Residence halls, dining halls, student unions, intercollegiate athletics, bookstores, faculty housing, chapels, theaters, public museums, service centers, and other similar auxiliary enterprises.
- Any space area that charges others for a service

As well as space used for:

- Service Centers/Recharge Centers/Specialized Service Facilities.

Other Institutional Activities (OIA)

Use this category to report space used for all activities of an institution that are not specifically assigned to other categories.

Includes space used by:

- Department Break rooms, Department Kitchens, Emeritus Used Space (Non-UF Paid), Volunteer Used Space (Non-UF Paid), Rare book collections, Small Department Libraries, Intercollegiate Activities, Public Relations, Development and fund-raising, Intercollegiate activities

Also includes space used for any other function, the activities of which are unallowable per Uniform Guidance 2 CFR 200.

Governance (Gov)

Use this category to report space used for any significant effort devoted to college and university-wide committee assignments.
Library (Lib)

Use this category to report space used for the operation of the libraries in the official university library system. Library administration should also be reported to this category.

Includes space used for:
- Storage of books and purchased material of the library.
- Reading areas.
- Study rooms.
- Library administrative room areas.

Specifically includes:
Library West, Smathers Library, Marston Science Library, Education Library, Journalism Reading Room, Music Library, Architecture and Fine Arts Library, Health Science Center Library, Borland Library (Jacksonville), Map and Imagery Library, Mead Library (P.K. Yonge), Veterinary Medicine Reading Room, and Legal Information Center.

Does not include space used for:
- Small departmental libraries that are not a part of the official university library system, which are considered Instruction.
- Rare book collections, which are reported as Auxiliary/Other Institutional Activities.

Operations and Maintenance (O&M)

Use this category to report space used for the administration, supervision, operation, maintenance, preservation and protection of the institution’s physical facilities.

Includes space used by:
- Physical Plant Division (PPD).
- Facilities Planning & Construction offices.
- Environmental Health & Safety offices.
- University Police Department.
- Campus Mail.

Patient Care

Use this category to report any and all space used for clinical practice activity, including the treatment of patients related to the Faculty Practice Plans.
Patient Care includes space used for:
- Health care delivery and treatment rooms not related to research or instruction.
- Patient care rooms (if any that are assigned to your department).

Does **not** include space used for:
- Administrative and support services for the billing, collection, and distribution of professional fees.
- Faculty office space when used for scheduling, reviewing patient charts or other administrative activities related to clinical practice.
- Administrative support to faculty for any activity related to clinical practice.
These are all considered *Practice Plan Administration*.

**Public Service (Pub Svc)**
Use this category to report space used for assigned duties such as serving as a consultant to local, state or national agencies; serving as an officer in professional societies; acting as an editor for a professional journal.

**Union Activities (and APA)**
Use this category to report space used for effort expended on United Faculty of Florida (UFF) or Academic and Professional Assembly (APA) activities.

**Vacant or Under Renovation (Vac Ren)**
Use this category to report space that is closed, entirely unused, empty, or undergoing renovation. Space that has been unused during part of the year should be shown at the corresponding percentage that it was vacant.

For example: a room that was empty, due to renovation, for three months would be shown as 25% *Vacant or Under Renovation* on that fiscal year’s Space Allocation Survey.

**NOTE:** Normal absences for short work breaks and vacations do not mean a room is vacant. Also, a room does not have to be used a specified number of hours a week. A dissection room for instruction used three days per week by students and unused the other four days would be allocated as 100% *Instruction*. 
f. Project Verification

If the room was allocated to Organized Research (OR) or Other Sponsored Activities (OSA), the associated project numbers must be added to the room. In addition, if a room is allocated between 1-99% OR or OSA Federal requirements dictate that you not only designate the sponsored research projects that are occurring within the room, but that you also provide the funding sources (chartfield string) supporting the non-sponsored activities occurring in the room.

Both projects and chartfields entered in the previous fiscal year will be shown in the Room Information screen. If a project was not worked on in this space for any part of the current fiscal year, the project should be removed with an end date of **June 30, 2015 or earlier**.

Projects that ended in the fiscal year must still be accounted for.

Projects that have expired will show in Italic to make you aware that they may need to be removed from the room.

The box will not allow you to verify as long as there are errors that need to be resolved. For example, if you did not allocate Organized Research to the room in the allocation, the system will tell you that in order to have a OR project in the room, you must have an allocation to OR.
**Adding Projects**

To add a project, select the “ADD” link. You can search for a project using the project number, PI UF ID, or a title keyword. Active projects within the past two fiscal years will display.

Search for the Project, Enter the Start Date that work began in the room, and click Add.

You can also add projects from the Data Screen.

- From the Main Menu on the side bar is an option for Data.

Click on “My Projects” and a list of projects that are within your department will appear in a list.

Select the project that is being worked on in the room, scroll to the bottom of the list and select the Menu button. Here you can add or remove projects from rooms in your space.

The projects are grouped by type: Other Sponsored Activity, Organized Research or Departmental Research.
Moving Projects

Projects, just like occupants, can be moved from one room to another - without being removed and added again - by using the “MOVE” function. This will remove the project from the current room and move it to a new room.

Copying Projects

Projects can be copied from one room to another by using the “COPY” function. This is especially useful in instances where work is being done on a project in more than one location. This function will copy selected projects in the room to a new room.

Removing Projects

To remove a project, select the project that needs to be removed and click on the “REMOVE” button. If the project listed was never worked on in the space and needs to be removed from the system entirely, enter the same end date as the beginning date.

The Begin and End dates of when the project was worked on in the room, as well as the PI of the project, can be found in the Project History Screen.
g. Rooms Designated as 1 - 99% Organized Research

If the room is partially allocated to Organized Research, Federal requirements dictate that you not only designate the sponsored research projects that are occurring within the room, but that you also provide the funding sources (chartfield string) supporting the non-sponsored activities occurring in the room.

**Adding Non-sponsored Sources**

Once the sponsored projects have been added to a room that is allocated to Organized Research, you must select the non-sponsored funding sources supporting the other allocations in that room. To do this, from the Sponsored Projects & Non-Sponsored Chartfields Section click ADD and select “Non-Sponsored Chartfield”.

You can search by:
- Department ID
- Fund Number
- Program Code
- Source of Funds
- Project ID

*To search for any part of the chartfield, type it in the chartfield area and it will display options. In this case, I am going to search for a chartfield with a specific project ID.*

Once you are able to locate the right chartfield select it and click Add.

If the entire chartfield string is known, you can enter it in the boxes provided and click add without searching.
Adding Non-sponsored Sources when PeopleSoft ChartFields are not applicable

In the drop-down box, there are special selections that can be made to document the non-sponsored allocation(s) when PeopleSoft ChartFields are not applicable.

Use these selections to report the non-sponsored portion of a room that has been partially allocated to Organized Research:

- **notuf**: This can include laboratories and other research space used by students, visiting researchers, Emeritus faculty, and volunteers who are not paid by UF.

- **ga grant**: Students who are paid by the grant being conducted in the room **AND** have a desk in the room at which they can work on their own dissertation or other course work.

- **vacant**: This can be used if the room has some portion allocated to Organized Research and Vacant/Under Renovation for the fiscal year.
V. Status Report

You can see that status of the space reporting from many different locations. The certifier’s goal is to have all rooms contain a ✓ in the Room, Occupants, Space Allocation and Projects columns. The best place to see the status of each room is on the home page of the SPIN system.

<table>
<thead>
<tr>
<th>Room Verification</th>
<th>Occupancy Verification</th>
<th>Allocated Rooms</th>
<th>Allocated Projects</th>
</tr>
</thead>
<tbody>
<tr>
<td>0%</td>
<td>0%</td>
<td>0%</td>
<td>0%</td>
</tr>
<tr>
<td>0 out of 143 Rooms Info Verified</td>
<td>9 out of 143 Room Occupants Verified</td>
<td>0 out of 143 Rooms Allocated</td>
<td>0 out of 143 Room Projects Verified</td>
</tr>
</tbody>
</table>

Another way to review your status is from the “Certify” or “Authorize” menu. This lists each department ID that you are responsible for and its status.

All Organized Research and Other Sponsored Activity projects must be accounted for in the Space Inventory & Allocation System before certification can occur. If there are any projects that have not been associated with space, a message will appear indicating how many unreported projects remain. Clicking the “Unreported Projects” will show all projects that still need to be associated with a room. If a project is included on this list in error, please contact the Office of Cost Analysis at 392-5778 for assistance.

In addition, all space requests must be completed before certification can occur. If there are any pending space requests that have not been resolved, a message indicating how many pending requests exist will be displayed. Clicking the “Open Space Requests” will show the user all the pending space requests. If a request shows on this list in error, please contact the Space Management team at 273-4006.
VI. Certification/Authorization

The steps for certifying and authorizing your space are identical. Depending upon your security you will see either a “Certify Space” link or “Authorize Space” link on the status report. This link will only be activated once ALL projects and pending space requests have been cleared for the department that you are certifying for.

<table>
<thead>
<tr>
<th>DEPT</th>
<th>NAME</th>
<th>STATUS</th>
<th>ROOMS</th>
<th>PCT</th>
<th>ROOM</th>
<th>OCC</th>
<th>ALLOC</th>
<th>PRJ</th>
</tr>
</thead>
<tbody>
<tr>
<td>10040100</td>
<td>EG CIVIL AND COASTAL</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10040500</td>
<td>EG MICROCOMPS TRANSPRT ACTRANS</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>19100100</td>
<td>EG ENVIRONMENTAL</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>19100200</td>
<td>EG CENTER-WETLANDS</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Select the Department ID you would like certified or authorized and select “Certify” or “Authorize”. Multiple Department IDs may be selected at once.

After certification, the status will change from “Complete” to “Certified”. Once the space is authorized the status will change to “Authorized” based on the key.
